

..... – **ACADEMIC YEAR**
..... **HIGH SCHOOL**
12th GRADE 2nd TERM 2nd ENGLISH WRITTEN EXAM

NAME:

CLASS: 12 /

SURNAME:

SCHOOL NUMBER:

1. Number the sentences below to reorder the news story correctly. (4x5=20p)

(___) The players were so good, scoring two goals that made everyone glad.

(___) After that, the team celebrated their victory in full vigour.

(___) When the second goal was scored, the crowd gave a loud cheer.

(___) There was a really exciting game at the big stadium yesterday.

2. Read the text below and answer the questions. (4x5=20p)

Solar energy is electricity that is generated by capturing the sun's rays. We can use technology such as solar panels on the roofs of houses or in large fields to collect this energy. In a solar power system, special cells inside the panels absorb sunlight. Then, they convert this light directly into electrical power for daily use. Solar energy is a clean and renewable resource because it does not pollute the air. However, installing solar panels is expensive at first, and they only produce electricity when the sun is shining during the day.

A. What is solar energy?

B. Where can we use solar panels?

C. Why is solar energy a clean resource?

D. Write one disadvantage of solar energy.

3. Write four examples of alternative energy. (4x5=20p)

4. Write two advantages of alternative energy. (2x10=20p)

5. Read the text below and complete the statements. (2x10=20p)

The word "refurbishment" means renovation. It is the operation of deep cleaning, repairing, and renewing something. In the construction industry, people buy old houses for low prices. They have the walls painted and the floors covered. Then, they sell these buildings at a profit. Refurbishment is also popular in the world of technology. In electronics, it covers replacing broken parts like screens or mainboards. If you want to buy a refurbished electronic device, you should always get it from reliable brands.

A. The word renovation has the same meaning as _____.

B. People buy old houses for low prices, repair them, and sell them at a _____.

GOOD LUCK!
